

#BeSureBeSafe

Thermal Scanning at Workplaces - The New Normal

A Mandate from Government of India - Ministry of Home Affairs to combat COVID-19

Thermal Camera with Tripod **testo 882**

Fast visual scan of individuals and groups: Check whether the body surface temperature is elevated

Available to mount on tripod as semi-stationary mode of screening instead of an inspector manually scanning the persons

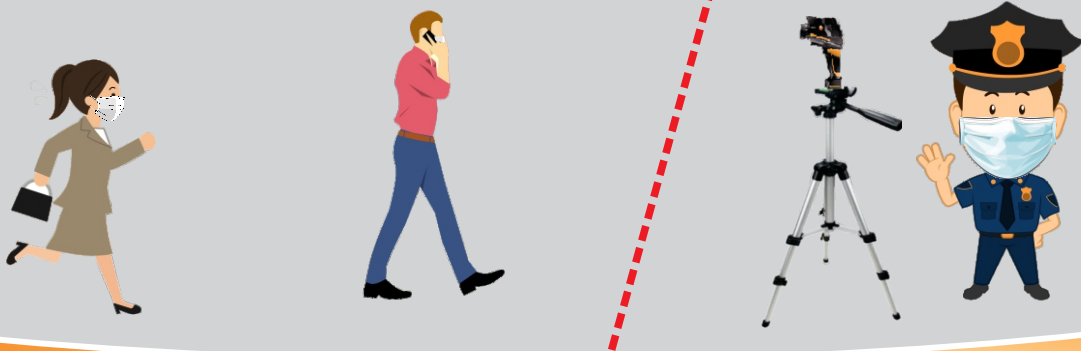

Crisp and clear thermal images from safe distance with parallel digital real images of the same measuring object

Reliable: up to 640 x 480 pixels resolution (with testo SuperResolution) and good thermal sensitivity

Easy one hand operation, thanks to Pistol design
