

Electronic leakage detector for refrigerants

testo 316-3 - Find any leak reliably

High sensitivity < 4 g/a allows the detection of the smallest leaks

Detects all common refrigerants

Easiest possible operation thanks to a single button

Immediate readiness with no pre-settings

LED indicator of leakage with simultaneous audible alarm

testo 316-3 is a reliable leakage detector for refrigerants which should be a part of every professional's refrigeration technology equipment. It detects even the smallest leaks thanks to its high level of sensitivity of 4 g/a, and fulfils the requirements of the F-gas regulation as well as the standards SAE J1627 and EN14624:2012. The instrument is ready for use immediately after switching on, without the need for selecting a characteristic curve. Thanks to the automatic zeroing, the testo 316-3 detects leaks even in rooms which have already been contaminated.

Technical data / Accessories

testo 316-3

testo 316-3, leakage detector for CFC, HFC, HCFC incl. sensor head, transport case, calibration protocol, batteries and filter

Part no. 0563 3163

Techn. data sensor

Meas. parameter	g/a
Sensitivity	4 g/a (0.15 oz/a)

EG 2004/108/EG

-18 to +50 °C

20 to 80 %RH

approx. 1 year)

(excluding sensor)

0 to +50 °C
